

STAT 302

Assignment #7
Due: November 19, 2007

Fall 2007

1. Problem 18.4
2. Problem 18.5
3. Use the data in A7P3.xls, which can be found on the class web site to solve this problem. The problem itself is described in Problem 18.9. The only change is that you are to use birth weight (birthwt) instead of systolic blood pressure as the dependent or response variable
4. Problem 18.12
